

## 4" LEGACY® – Single Header

**Our customers asked and we listened.**

AIRGUARD®, is proud to announce an exciting new addition to its highly successful **LEGACY** line of high-efficiency air filters. Effective immediately, the MERV 14, 4"-deep **LEGACY** is available with a ¾" wide single-header. This new addition is equal to existing **LEGACY** 4" products in construction and performance and offers the identical features, advantages and benefits:

- Lower initial pressure drop than competitive 4"-deep filters; reduces energy costs
- Exceeds requirements for air filters contributing to LEED/ Green Building Certification
- All plastic cell-side construction means lighter weight, easier handling and faster installation
- Fully incinerable
- Four sizes (24"x24"x4", 20"x24"x4", 20"x20"x4", and 12"x24"x4)

### **Unique Channel-Flow Molded Media Pack Produces the Lowest Resistance**

All **LEGACY** filters are made with synthetic media. This media is extremely durable, which significantly reduces the damage that can occur during shipping, handling and installation. It is unaffected by exposure to moist conditions and also withstands many chemical and corrosive applications. It is ideal for turbulent conditions or high moisture environments.

### **100% Synthetic Media – Just Plain Tough**

Our 100% synthetic media is molded into a series of pre-formed pleats that direct air smoothly through the media pack. Precisely spaced, narrow strips of adhesive maintain pleat spacing in even the most demanding operating conditions. This construction method also provides maximum pack strength and rigidity, while ensuring full media utilization and the lowest initial resistance to airflow of any comparable high-efficiency filter in the market. Lower resistance means reduced energy consumption, lower utility costs, and real dollars saved. The **LEGACY** offers a great return on your investment in cleaner air.

### **Call Today**

For more information regarding the new 4", single-header **LEGACY** please contact your nearest **AIRGUARD** Stocking Distributor, local **AIRGUARD** Territory Manager or a Customer Care Associate at 866.247.4827. You can also access [www.airguard.com](http://www.airguard.com) and click on the Distributor Locator Button.

For details on the entire **LEGACY** product line, request brochure A-LEG.

# 4" LEGACY® - Single Header

High Efficiency Extended Surface Filter with Channel Flow Molded Media

Model Number	Nominal Size (HxWxD) Inches	Actual Size (HxWxD) Inches	Rated Air Flow Capacity (CFM)	Initial Resistance (In. W. G.) @Rated Air Flow MERV 14	Recommended Final Resistance (In. W. G.)
<b>4" Packs with header</b>					
LG4-903-PH	12x24x4	11 <sup>3</sup> / <sub>8</sub> x 23 <sup>3</sup> / <sub>8</sub> x 3 <sup>3</sup> / <sub>4</sub>	1100	.48"	1.5"
LG4-913-PH	20x20x4	19 <sup>3</sup> / <sub>8</sub> x 19 <sup>3</sup> / <sub>8</sub> x 3 <sup>3</sup> / <sub>4</sub>	1400	.48"	1.5"
LG4-915-PH	20x24x4	19 <sup>3</sup> / <sub>8</sub> x 23 <sup>3</sup> / <sub>8</sub> x 3 <sup>3</sup> / <sub>4</sub>	1650	.48"	1.5"
LG4-904-PH	24x24x4	23 <sup>3</sup> / <sub>8</sub> x 23 <sup>3</sup> / <sub>8</sub> x 3 <sup>3</sup> / <sub>4</sub>	2000	.48	1.5"

**IMPORTANT NOTES:**

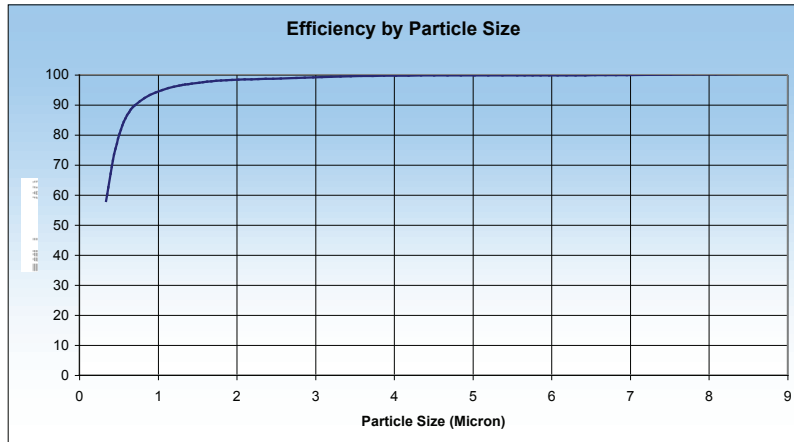

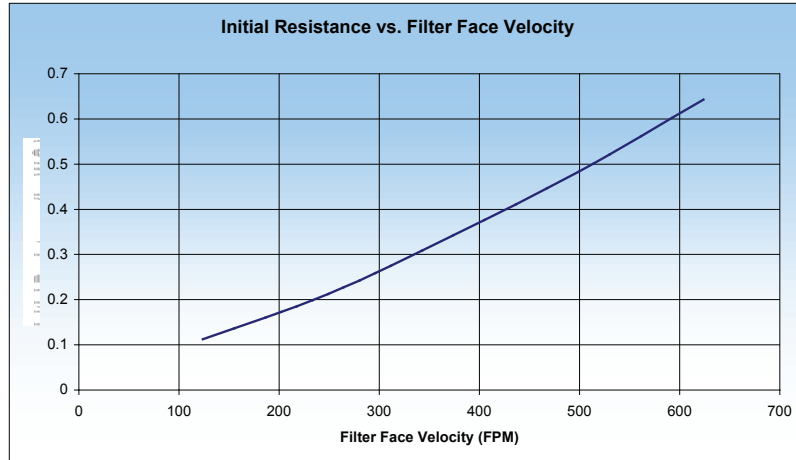

- All performance data is based on the ASHRAE 52.2-2007 Test Standard. Based on a test velocity of 492 FPM for 24x24 face size.
- Width and height dimensions are interchangeable. **LEGACY** filters can be installed with the pleats vertical or horizontal.
- Continuous Operating Temperature: 140°F (60°C).

**Underwriters Laboratories Inc. Classification:**

LEGACY filters are classified Class 1 per U.L. Standard 900.

LEED (*Leadership in Energy and Environment Design*) addresses all building types and emphasizes state-of-the-art strategies in five areas: sustainable site development, water savings, energy efficiency, materials and resources selection, and indoor environmental quality.
